## WELCOME TO BONCHUK FARM'S ANNUAL BULL SALE - 2016 EDITION

Welcome to our 16th Annual Bull Sale. Every year we feel so fortunate to see many of the same people attend our sales. We have developed many long lasting friendships and we treasure these relationships. We would like to thank all our customers, both past and present and we look forward to meeting new folks in the future.

With the good run of high prices the last couple of years, it was gratifying to talk to buyers and sellers of Simmental and Simmental crossed calves. Everyone had a smile on their face and extra dollars in their pockets. The talk of world population growing to 9 billion people gives us a market for our product that could be hard to satisfy.

This is a great time in our industry for youth and it is very encouraging to see young people looking at beef production as a profession. Some advice for new or newer operators "DREAM BIG, WORK HARD, STAY FOCUSED AND SURROUND YOURSELF WITH GOOD CATTLE!" A comment we aspire to.

Herd bull selection is a major decision and customers should be as informed as possible. We welcome all calls or visits, to help with your questions or selection. The bulls are always available for viewing at the farm anytime and we enjoy the opportunity to showcase the bulls in their natural environment. We will have the bulls in Virden on Friday, before the sale and you can also preview bulls online on our website [www.bonchukfarms.com](http://www.bonchukfarms.com). Give anyone of us a call if you have any questions or Brian Bouchard and his capable staff. If unable to attend the sale, Mark Shologan, of DLMS will be live broadcasting our event.

We hope you can join us in Virden to evaluate our genetics and share in our Bonchuk Style hospitality. We look forward to offering bulls that will maximize pounds, sire excellent replacement females and help customers capitalize on the shifting market place that is part of our livestock industry.

Bonchuk Farms Motto –

Visitors Welcome...

"Where the coffee is always on, the beer is always cold, and the perogies are homemade."

- Bonchuk Farms Families

## WELCOME FROM BOUCHARD LIVESTOCK

Welcome to the Annual Bonchuk Farms Bull Sale. Bonchuk bulls for the 2016 sale will consist of larger sire groups that will enable you to find half-brothers for the larger cow herds and individuals with slightly more contemporaries to assist with your evaluation. There will be a strong offering of Red, Black and Fullblood Simmental bulls. A group of bulls will be sired by breed-leading AI sires, as well as the highly proven walking herd bulls at Bonchuk Farms. The Bonchuk bulls have been developed with a moderate ration, enabling these bulls to go out and work to your advantage. With this sale being somewhat earlier, these February and March born bulls will be approximately twelve months of age, so it is important to give that some consideration. Whether your needs are for a pedigree herd or a front end commercial program, there will be individuals in this offering to suit your herd bull needs.

Give Dave or Wayne a call prior to the sale and discuss your herd bull requirements. They will do their utmost to assist with your selection. All of us at Bouchard Livestock will be very familiar with the offering and available at any time in person or by cell phone. Hopefully you can join us at Heartland Livestock in Virden on February 21st. If you require representation sale day we will be available to assist you with your needs.

Sheriff certainly left his mark in our heifer pen, siring calves that are born small and easy, shortened gestation, averaging 282 days, and all progeny exhibited tremendous vigor like no other sire we have seen in some time. 20C is a blaze faced bull with great rib shape and adequate top, is moderate and a "can't miss" choice for your heifer pen. If you have a group of heifers to breed, step into one of these Sheriff sons, and enjoy a very stress-free calving season. Lots of longevity on the dam's side, and great production as well.

This dark red Sheriff son is loaded with eye appeal, natural thickness and great predictability. The grandam, 229U, has had several top progeny and was the dam to a feature Sledge son in last year's sale. 25C has a full sister as his dam, she was one of the top replacements kept for our herd. This bull will sire easy-doing, middle of the road progeny with tremendous consistency. Keep every one of his daughters, they will make super cows.

An excellent Stubby son that is a non-diluter, and should go on to make an impressive herd sire. Stubby's influence has been very well accepted with the Simmental industry, siring easy-doing, middle of the road progeny that can go out and do a great job. 26C has excellent credentials to become a great all around sire. He comes from a great cow family as his grandam is perfectly-uddered and has raised cows of our top black progeny, both in herd and through the bull sale.

A low birth weight Red Rock son that is multi-red and multi-polled and would be another great choice to use in the heifer pen. Red Rock has been one of the easiest calving bulls we are fortunate to own and has been used quite liberally on heifers. 57C's dam is a great-uddered Sting daughter that has made a consistent effort every year. Respectable performance maternally strong and great eye appeal and predictability on this bull. Full brother sold last year to Lazy T Cattle at Carievale, SK.

Another top candidate for the heifer pen, 52C started at 80lbs and short gestation to become a calving ease specialist. The grandam to this solid red bull has had some great influence within our program, and this bull's females should do the same. Like their sire, these Sheriff sons won't be big-framed bulls when they mature, but will provide years of trouble-free calving with decent performance.

Another Red Rock son that should be predictable and profitable. As 236C is developing, he displays the sogginess and thickness of his sire. Excellent body length, adequate top and spring of rib, super hair coat and maternally sound. 148X is a big volume female and has progeny working in the programs of Randy Ward, Delichte Simmentals, and Moffat Farms. She has been a great addition for us. This young bull should have a bright future.

A long-bodied beef bull sired by our Predator son. 212C has an excellent top, sufficient spring of rib, great-haired and should sire some eye appealing progeny. The dam has been a hard working female and has raised some good ones before. She is a blaze faced, Fleckvieh influenced female that gets the job done. Hetero Black

Another top son of Dealer that has the same attributes as his sire. Excellent length, huge rib capacity, pleasing hair coat and superb temperament. An excellent prospect destined to be a great herdsire. His young dam has been very productive. Her Red Mountain son in last year's sale was her first calf and ended up being our high selling red bull in last year's sale, selling to Cornerview Ranch and 7J Ranching, Pincher Creek, AB. She is a beautiful, angular female with excellent shape and terrific udder structure. Lots of predictability bred into this herdsire prospect with guesswork pretty much eliminated. Hetero Black.

An exceptional herdbull prospect. Sired by Heartland, who is a bull we raised and is doing an excellent job of siring middle of the road progeny and has had several high selling daughters in the last two female production sales, and mothered by a very unique dam. KML 3T has proven she can raise some useful progeny. Her first daughter is now working at the excellent program of Beechinor Bros at Bentley, Alberta. Her second daughter, and a full sister to this bull, was a feature lot in our female production sale last December and resides at Silver Lake Farms at Cartwright, Manitoba.

A long-bodied Juggernaut son that has commanded much attention all summer and fall, and has developed very well over winter. Strong-topped, exceptional performance and comes from a great producer in 421U. She has placed progeny in the programs of Maxwell Simmentals, Thorgilsson Simmentals and TJ Farms. His full sister was a feature lot in our production sale last December. 197C will inject a lot of positive traits in his calf crop.

A very stout made full Fleckvieh son of Juggernaut, lots of top, muscle expression and capacity in this bull. 244C has a nice shape to him, moves freely and will mature to be a herd improving herdsire. His dam, 181T, has proven herself many times. She has raised many top progeny, selling to the programs of Hoegl Livestock Ltd, Rendezvous Farms, Mack Ranch, Keet Simmentals, and we have a great full sister in herd. The influence in her production has great cows behind the bull, Double Bar D Lynn, Ms Klyber 54L and the great Dora Lee Franchesca. Plenty of predictability behind this bull. He will only get better with age.

A dark red, moderate-framed goggle eyed son of Heartland that will sire a uniform calf crop and do a great job of keeping uniformity and eye appeal in his offspring. Dam is a big-hipped, deep-bodied female that was purchased from the Murray Farms dispersal and has a full sister to this bull calving for us this winter that looks to be the front pasture type.

A moderate Cowboy son that will have the ability to sire calves that will turn grass into dollars and look good doing it. Great length of body, ample width of top and super performance. 348X is an attractive, big-ribbed cow that had a feature full sister sell last December to Timothy Jackson, and has a son at Kevin Lang's, and another daughter at Big P Simmental.

A dark red, goggle eyed beef bull; he has all the bells and whistles to potentially turn into an outstanding herdbull. Wide-topped, deep-ribbed, tonnes of capacity and muscle expression, all in an eye appealing package. Dam is a great-uddered, excellent milking female that has a daughter in herd and looks to be the herd building kind. We are very pleased with how the sire of this bull is siring excellent progeny.

This full Fleckvieh herdsire prospect is a beef machine, he is loaded with capacity, tremendous rib shape, excellent width of top, a great haircoat and has great performance. The maternal side of this bull is stellar, 10Z raised a super Viper son that sold to Calvin Kotylak in last years sale, and has proven herself again on this stout beef bull. Add in the influence of Unze 77F, 289C will produce sought after progeny both male and female. We think this bull has a great future.

The Juggernaut progeny have been very consistent. Sons and daughters are loaded with depth, style, good tops and rib shape and are great tempered. This young full Fleckvieh bull will have great predictability. There are some super mother cows in his pedigree, Petra, Zaila 8Z, Barbi 46K and JB Heaven 75H, who was in our transplant program for several years and left us with some great progeny. No gamble on this young bull.

## **SALE TERMS & CONDITIONS**

The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. Bouchard Livestock Ltd reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should the purchaser fail to settle for his purchase, Bouchard Livestock Ltd reserves full power to resell the animal to the best advantage, either publicly or privately, without further notice. Any loss arising from such resale, together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. The owners, Bouchard Livestock Ltd. and sale staff have the right to refuse bids from anyone who has a previous record of default in payment and/or who has not made prior credit arrangements prior to the sale with the owners and/or Sale Management.

**BID** - Every animal consigned to the sale must be sold by auction. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

**DISPUTES** - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**PURCHASER'S RISK** - Each animal becomes the risk of the purchaser as soon as sold.

**ANNOUNCEMENTS** from the auction block will take precedence over printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

**CERTIFICATE OF REGISTRY** - The proper Registration of Recordation paper, as the case may be, will be duly transferred and

furnished to the buyer for each animal after settlement has been made.

**SHIPPING** - Assistance will be given in making shipment after the sale, but Sale Management or Seller assumes no risk. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instruction when making settlement.

**GUARANTEE** - All animals will carry standard breeding guarantee as specified by the applicable Canadian breed Association. At no time shall the seller's liability exceed the purchased price of the animal.

**EXCEPTION TO GUARANTEE** - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void. In the cases of bulls, they are guaranteed to breed naturally according to applicable Canadian breed Association guarantee, but no guarantee is given that semen from any bull will freeze.

**HEALTH** - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Bouchard Livestock Ltd assumes no responsibility for the health status of any animal in the sale.

**ACCIDENTS** - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sale Management, auctioneer, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

**RIGHTS AND OBLIGATIONS** - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and the terms and conditions of this sale do not cover obligations of the two parties connected thereto.

**BOUCHARD LIVESTOCK LTD IS AGENT ONLY** - It is clearly understood that Bouchard Livestock Ltd acts only as agent between buyer and seller and is not in any way responsible for any failure by either party to live up to his or her obligations. Bouchard Livestock Ltd does not assume any financial obligations to collect or enforce collection of monies by either parties, and in exceptional case, any legal action will be between buyer and seller. Bouchard Livestock Ltd has no ownership of the facility and assumes no responsibility for the operation of said facility.
