..... Welcome to Bonchuk Farms Female Production Sale 2021

What a year! Seems like we just got last years write-ups done and there is another set of heifers to sell. We really like the way these set of heifers have developed and are sure that they will perform for their new owners. These females have been A-I'd to industry leading bulls or bred to our walking calving ease sires.

There is a diverse selection of deep bodied powerful made females that make us proud to offer to you. Our herd is on a complete vaccination program as listed in this catalogue. We know these girls will go out and work for you.

With still some restrictions in place we encourage all buyers to stop by the farm to view the sale offering. We ask that you please call ahead and we would be happy to walk you through the sale group. The cattle can also be viewed at Ja-Lyn Farms/JP Cattle Co. Sale Facility starting on Wednesday, December 9th.

We have Mark Shologan of DLMS Marketing Services live broadcasting the sale you can participate on line. All heifers will be videoed before the sale and will be seen on DLMS at sale time. On Sunday, December 12th we would love to have you attend in person and we will treat you to our usual Bonchuk Farms hospitality.

We look forward to working with all the T Bar C crew. Shane and Chris have been through the offering and can assist with your selections.

Great Cattle – Great Customers

After all these years its really that simple!

Merry Christmas to all our friends from
everyone here at

UPCOMING EVENTS...

BONCHUK FARMS BULL SALE

Tuesday, March 8, 2022 • Virden, MB

From the desk at T Bar C...

Welcome to Bonchuk Farms fall female production sale. This will be one of the largest offerings of registered bred heifers in Manitoba to sell this fall from one single operation.

This year's offering is once again filled with red, black, fullblood and Sim/Angus genetics from a combination of the most proven, as well as some of the newest genetics in the market. These broody, big bodied girls are loaded with hair phenotype and carry some of the most interesting services to be offered this fall. The fact that this offering is produced from one of the largest Simmental cow herds in Manitoba is sure to appease the most astute cattleman and rest assured, will be worth a look whether it's one or a package of bred heifers you require.

The customer service at Bonchuk Farms is a top priority and is one of the big reasons that the repeat customer number remains so high. A big part of the success at Bonchuk Farms is making sure that you're successful with your new purchases moving forward. Following up with new and old customers throughout the year has been the key to maintaining so many repeat buyers, while building valuable and profitable relationships to move their operations forward.

The Bonchuk family would love to show the offering prior to the sale, as well tour you through their mothers to give you a sense of the strength in the cowherd and the operation they originate from. The coffee is always on and if you're lucky, you might catch a tour on a perogy making day which is always an added bonus.

We at T Bar C as always are very excited to work with the Bonchuk families to help offer this deep set of bred heifers for your appraisal, this December. Whether it's one special one or a package you require, we are here to help and assist you with any of your buying requirements in the most professional and confidential manner. We have been through the cattle and know the program well to answer any questions you may have and look forward to visiting with you, any time prior or on sale day.

For the Bonchuk families,

Shane Michelson

TERMS & CONDITIONS

TERMS

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION

Each animal will carry papers issued by the Canadian Simmental Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

HEALTH

All animals in the sale have met all necessary health requirements.

GUARANTEE

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Simmental Association with regards to health, freedom from defects and from both reproductive and specific genetic unsoundness.

PREGNANCY INFORMATION

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

LIABILITIES

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may, in exceptional cases, be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

DELIVERY

Assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

PHONE, MAIL, WIRE BIDS

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE

We strongly recommend that insurance is purchased for full value.

ERRORS

All announcements at sale time, written or oral, supersede any written material in the catalogue.

DELIVERY

Shipping assistance will be given in making shipment after sale but sale management or seller assumes no risk. Bonchuk Farms will assist in arranging trucking to central points across Canada. All costs associated with shipping will be the responsibility of the new owner.

HERD HEALTH

All bred cattle received Express 5 before breeding and Total Herd has been on the Express program for over 10 years, making the ranch BVD-free. Bred heifers also received black leg vaccine before breeding. All pregnant cattle have their first shot of Scour-Bos vaccine and treated with Ivomec.

A powerful blaze faced Crosby daughter who should be a producer. Excellent width of top, wide hiped and tremendous capacity, just like her dam, 292Y, who has a great production record and has brought in a top young heifer again this fall. Bred to Affinity, her baby should come easy and grow quickly.

Exposed to Wheatland Affinity 8196F from April 26 to June 25, 2020.
Observed bred on May 2.

A powerful daughter of Liner that has herd builder written all over her. Liner has been doing a fantastic job for us here, siring beefy cows and beautiful uddered eye appealing daughters that can produce. 101H is a non-dilutor female that comes from a great producing cow family. The dam is a powerful cow that has done well and has a top replacement in the open heifer pen, the grandam is a gorgeous female that is excellent uddered and one we rate very highly, and the great grand dam 192W was in our flush program and has proven to be an excellent acquisition from the KOPP dispersal. Plenty of predictability in this heifer and she carries an exciting service to Hannibal, the high seller from the 2021 Premium Beef Bull sale. Should be a very exciting calf

A tremendous female I'm very sad to see leaving the farm. Everything about this United daughter is BIG! Big barreled, big boned, big back end, big footed, big power! She's got magnificent eye appeal, length, capacity and has a perfect udder coming in. Along with a very quiet demeanor to put icing on the cake. 212H comes from the prolific 79W cow family who has given us a very long list of powerful, heavy milking brood cows in herd which is the only reason we are letting her go. She is a female that will go out and work hard in any program and bring in a profitable calf for you come fall. She should raise an outstanding Battle Cry calf.

Bred to NAC Battle Cry 4F on April 20, 2021. No exposure.

Full Fleckvieh. Another example of a dark red Silver Lake Dealer bringing in everything we look for in a good replacement female. The depth of body and width of top 226H possesses is exemplary not to mention the make up of this female is just so extremely correct from her frame structure to her spectacular udder, it just screams brood cow. Mothered by a second calver 115E, that has really impressed us and proven herself a "get the job done" female at a young age. Longevity and predictability are bred into this heifer. She will have a great dark red Battle Cry calf.

Bred to NAC Battle Cry 4F on April 28, 2021. No exposure.

A typical Dealer daughter and is the spitting image of her dam 2W. Traditional goggled eyed female built powerful with her big frame and length of body. She'll mature to be a trouble free, easy doing female that will milk great just like her mama. Comes out of a reliable, great milking cow family that raises consistent progeny. Bull or heifer; should be an outstanding Spartan calf.

Bred to Virginia Spartan 530E on May 1, 2021. No exposure.

Full Fleckvieh. Here is a business in the front party in the back kind of heifer. She is a very clean fronted female that just oozes eye appeal and demands your attention. Her natural thickness throughout her backend and her big volume rib shape showcases why she will transfigure into a front pasture female that will raise progeny with pounds, performance and predictability.

Bred to NAC Battle Cry 4F on April 27, 2021 No exposure.

Here is a real sweetheart of a heifer. Totally love the composition this lady possesses, very smooth made, attractive front ended style of gal with a strong fleckvieh influence. She is moderate framed and deep ribbed with a great udder coming in! We purchased her mother from the good folks at Crossroad Farms, she is a deep ribbed attractive momma who milks really well. Her Spartan baby should come easy and grow quickly.

Bred to Virginia Spartan 530E on May 1, 2021. No exposure.

Despite being the youngest fullblood in the group being an April born baby she doesn't back down in quality to her pen mates. 340H is level topped with a moderate frame and great capacity. Longevity is built into this lady's bloodline. We have the dam, grand dam and great grand dam still in production kicking ass. Look for an exciting Virginia calf this coming spring!

Bred to Virginia Spartan 530E on May 2, 2021. No exposure.
